Home Assignment Web D L2 Lesson NO 15

Loops and Arrays

● Write the program –

➔ for finding factorial of a number using for loop

➔ Print numbers from 1 to 9 using while loop

➔ Iterate through an array using for/of and for/in loop

➔ Any program of his/her choice on do-while loop

------Revise the concept learnt today:

JS Loops

● JavaScript has following types of loops:

➔ for - loops through a block of code a number of times

➔ for/in - loops through the properties of an object

➔ for/of - loops through the values of an inerrable object

➔ while - loops through a block of code while a specified condition is true

➔ do/while - also loops through a block of code while a specified condition is true

JS Arrays

Array Methods
